TECHNICAL SKILLS:

- **Frontend:** React js, Angular, Redux, JavaScript, HTML, CSS
- **Backend:** Node js, Express js, Django
- **DevOps:** Docker, Kubernetes, AWS, Jenkins, Ansible
- **Database:** MongoDB, MySQL, PostgreSQL

EDUCATION:

Rajasthan university, Jaipur | Bachelor of Computer Applications 2023-2025

Poornima university, Jaipur | Masters of Computer Applications 2025-2027

EXPERIENCE:

Web Developer & Digital Marketing Assistant

Jaipur Royal Gems | July 2024 – April 2025

- Developed a fully functional website named "Cabochon for Sale" for the company.
- Managed digital marketing activities, including online promotions and client communication.
- Handled online client chats, helping customers with product details and orders.
- Performed regular website updates and modifications to improve user experience and product visibility.

Website Developer

Phone Repairing Shop | August 2022 – February 2024

- Developed a Phone Repairing Website that allows customers to book repair appointments online.
- Created modules to store and manage customer details and repair requests.
- Built a system to track repair status, including whether the phone is repaired or still in progress.
- Added features to check availability of spare parts required for repairs.
- Included a section to manage and display available second-hand phones for sale.

PROJECTS:

Solo Leveling -Front End and Back end Development

Tech Stack: React.js, Node.js, Express.js, MongoDB, Tailwind CSS

- Developed a Solo Leveling–inspired fitness tracker to engage users with daily quests.
- Created modules to store and manage customer details and repair requests.
- Built a system to track repair status, including whether the phone is repaired or still in progress.
- Added features to check availability of spare parts required for repairs.
- Included a section to manage and display available second-hand phones for sale.

Jhapto Store -Front End and Back End Development

Tech Stack: React.js, Express.js, MongoDB, Bootstrap CSS, PostgreSQL, Redux, Cloudinary

- Developed a functional e-commerce website using React.js with a clean, component-based UI.
- Demonstrated strong front-end development skills through responsive and dynamic layouts.
- Implemented React Router for smooth navigation across Home, Products, Cart, and Checkout pages.
- Added interactive features to improve customer engagement and simplify the buying experience.

URL Shortener -Back End Development

Tech Stack: HTML, CSS, Node.js, Express.js, MongoDB

- Developed a URL Shortener web application that converts long URLs into short, shareable links with secure redirection.
- Implemented backend logic for generating unique short codes, validating URLs, and storing click analytics using Node.js, Express.js, and MongoDB.
- Built a clean and responsive front-end interface using HTML and CSS for quick URL input and instant short-link generation.
